

### Play from an external device

If the music player does not supply the Bluetooth function, you can also listen to an external audio device through this speaker using audio 3.5mm cable ( not included ).

1. First connect the 3.5mm audio plug to the 3.5mm AUDIO output or earphone jack on an MP3 player, plug another 3.5mm jack to the AUX IN socket on your speaker.
2. Speaker will switch to Line In mode automatically.
3. If you want to adjust the volume level of your speaker, only adjust the volume control on the connected MP3 player.
4. If you want to Play/pause the music play, just control the native buttons on your MP3 player.

Note: In power on mode, the AUX in function is effective if the AUX in cable is connected although the Bluetooth indicator lights continually; the Bluetooth function is effective if the AUX in cable is disconnected.

### Care and maintenance Instructions:

When cleaning the unit, you should first unplug it from the power supply. Use only a dry soft cloth to wipe the unit. Never allow water or any other liquids to get inside the unit while cleaning. Do not use any cleaning agents containing alcohol, ammonia, benzene, or abrasives as this may harm the set. Unplug the unit if you are not using it for an extended period of time. This product is not intended for commercial use. Household use only.

### Trouble Shooting

Symptom	Possible problem and solution
Cannot pair successfully	Check whether the speaker is in power on and searching mode. Check whether there are too many Bluetooth receivers around your Bluetooth device. Turn them off to avoid any disturbance. And pair again.
The sound is small or distorted	Check the volume setting on your Bluetooth device and adjust the volume to a suitable level.
Cannot play properly, the music is intermittently	Check whether the distance between the speaker and your Bluetooth device is out of its working distance 10m, or whether there are some obstacles blocking the communication between the speaker and the Bluetooth device. Move the speaker or the Bluetooth again to get the best position.
No sound from the speaker when playing music via bluetooth	Check the bluetooth is connected and the volume setting on your Bluetooth device. Check the AUX-IN cable is unplugged.

FCC ID : 2ACUH-BOOM

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
-- Reorient or relocate the receiving antenna.  
-- Increase the separation between the equipment and receiver.  
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
-- Consult the dealer or an experienced radio/TV technician for help.

Changes or Modifications not expressly approved by the party responsible could void the user's authority to operate this device.
